Hi Bob:

I'm trying to dig up the info that you're looking for and will get it to you as soon as I can.

John is doing better; he's back in Wausau and trying to work a little here and there, returning phone calls, emails, etc. His address is:

1226 Highland Court

Wausau, WI 54403

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Subject: questions on Tower Standard gw pump and treat system

Hi Chris,

Are there any documents that include information about pumping rates, amounts, etc. from the gw remediation started in the 1990s? I don't believe that we have any documents from that time. I don't need anything extensive, just some totals and which wells were used at which times would be helpful.

I am trying to put together a little historical information for a EPA LUST workgroup where we share site information.

I appreciate the help. How is John doing? Have you heard anything new? If you do get an address for him, we would like to send a card.

Thanks.

Bob
